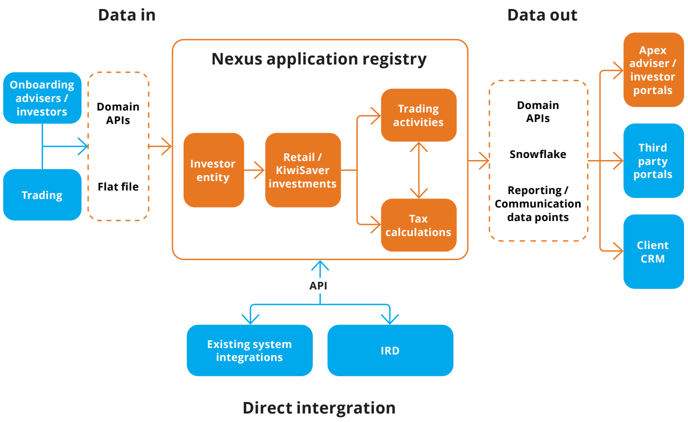
Nexus: Built for the Kiwi market



Powered by leading technology

Our flexible system integration supports APIs, files, and eventing for seamless connectivity to existing systems and ease of access to your data.

As part of the Nexus registry solution, our tailored investor, adviser, and branded client portals can enhance your customer service offering with no development required.

Full range of solutions

We empower clients to focus on their core business, offering a full range of solutions from custody to registry services.

Whether you need a fully outsourced solution, support for your in-house registry or branded client portals to extend your customer service offering, we have the flexibility to meet your needs.
